 </p>`

Live Portfolio

[Visit My Portfolio →](#)

Features

- 🖐️ Personal introduction and developer profile
- 🛠️ Technical skills and technologies
- 🚀 Featured full-stack and AI-powered projects
- 📄 Downloadable resume
- 📱 Responsive design for desktop and mobile
- 🔗 GitHub and live project links
- 📧 Contact section

Tech Stack

Category	Technologies
Frontend	React.js, Vite, JavaScript (ES6+), HTML5, CSS3
Deployment	Vercel

Featured Projects

PrintEase

Hyper-local document printing and delivery platform connecting students, printing centers, and delivery partners.

Tech: React.js · Node.js · Express.js · MongoDB · Tailwind CSS · Leaflet.js

HealthGuide AI

AI-powered post-diagnosis lifestyle recommendation engine using Retrieval-Augmented Generation (RAG) and curated medical knowledge.

Tech: React · Django REST Framework · PostgreSQL · LlamaIndex · ChromaDB · Google Gemini

Getting Started

Prerequisites

- Node.js 18+
- npm

Installation

```
git clone https://github.com/sadhana-0705/<your-portfolio-repo>.git
cd <your-portfolio-repo>
npm install
npm run dev
```

The application will be available at:

```
http://localhost:5173
```

About Me

I'm a Computer Science undergraduate interested in building practical software applications and exploring AI-powered solutions.

I enjoy working across the full stack — from designing user interfaces and building REST APIs to integrating databases and developing intelligent application features.

Currently focused on strengthening my software engineering fundamentals, building real-world projects, and continuously learning new technologies.
